

**C O N T E N T S**

From the Editors . . . . .	5
Lidiya BAZYLEVYCH, Mykhaylo ZARICHNYI On the hyperspace of space curves of constant width . . . . .	7
Taras BANAKH, Lyubomyr ZDOMSKY, Sergii PIDKUYKO How many convergent sequences is necessary to detect discontinuity? . . . . .	13
Oksana BIHUN, Mykola PRYTULA Method of Lie-algebraic approximations in the theory of dynamical systems . . . . .	24
Nina VIRCHENKO Hybrid dual integral equations with Lommel, Bessel, Legendre functions . . . . .	32
Petro GUDIVOK On the isomorphism of complex group algebras of finite solvable groups . . . . .	39
Volodymyr ILKIV Multipoint nonlocal boundary value problem for a system of nonhomogeneous partial differential equations with time variable continuous coefficients . . . . .	47
Volodymyr LYUBASHENKO Special props and homotopy bialgebras . . . . .	59
Volodymyr MASLYUCHENKO, Volodymyr MYKHAYLYUK Separately continuous functions of several variables on products of spaces which are products of metrizable factors . . . . .	77
Anatoliy PRYKARPATSKYI, Anatoliy SAMOYLENKO, Myroslava KOPYCH, Ufuk TANERI, Denis BLACKMORE Quantum holonomic computing via Lax type flows on Grassmann manifolds and dual momentum mappings . . . . .	85

Victor REVENKO	
Spectral method to integration of biharmonic equation in rectangular domain . . . . .	105
Oleh SKASKIV	
On stability of the maximum of the sequence of the linear functions . . . . .	120
Myhaylo SYMOTYUK	
Two-point problem for a linear system of homogeneous partial differential equations . . . . .	130
Yuriy TOKOVYI	
Construction of solution to the plane mixed thermoelasticity problem in a rectangular domain . . . . .	149
MYKOLA BOGOLYUBOV. To 95-th anniversary of his birthday	158
Contents in Ukrainian . . . . .	165
Contents in English . . . . .	167
